

## Our Products

We make components and assemblies required for cylindrical connectors equivalent to most MILITARY and AEROSPACE standards across the globe. We ensure the requisite quality level at competitive price. We work in strict confidence with all our customers keeping the proprietary nature of every design, honoring our commitment is our top most priority.

### D38999 series III Connectors

MIL-DTL-38999 Series III Connectors offer reliable high performance interconnect solutions for harsh environment applications. These Tri-start connectors provides features like environmental sealing, self-

### Mil DTL 26482 Series II connectors

MIL-DTL-26482, Series 2 connectors are bayonet coupling type with rear insertable and rear releasable crimp contacts and are interchangeable and intermateable to all MIL-DTL-

[Read More](#)

### 651 Series Connectors

VMX 651 connectors are light weight, robust, environmental resistant connectors designed to meet the requirement of MIL-DTL-26482 Series-I, solder contact type. These miniature, three-point bayonet quick

[Read More](#)

### D Sub connectors

D Sub connectors are D shaped miniature connectors, having two or more parallel rows of contacts surrounded by a characteristic metal shell. These reliable, high-performance connectors widely used in military, aerospace and

[Read More](#)

### Underwater connectors

VMX offers reliable high performance inter-connect solutions for extreme marine and underwater applications. These connectors are designed to withstand hydrostatic pressure requirements of upto 600

[Read More](#)

### Junction boxes

VMX offers a wide range of junction boxes with high mechanical electrical and optical integrity. We manufacture junction boxes with material such as Stainless Steel, Super Duplex Steel, Titanium, Marine Bronze etc.

### Special connectors

VMX render economically viable tailor-made inter-connect solutions as per the growing demand of customer requirements in shorter lead times. A comprehensive consultation is provided to customers to realize a right solution

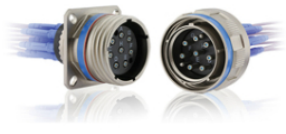

[Read More](#)

### Hermetic connectors

Hermetic connectors are manufactured to operate reliably in harsh and severe environments from cryogenics to extreme temperatures. Hermetic connectors are mainly based on glass to metal sealing

[Read More](#)

### Fibre optic connectors

VMX offers a series of Fiber Optic connectors for use in the extreme conditions in military and aerospace applications. Our Fiber Optic connectors ensure reliable high data rate, high bandwidth connections.

### Backshells

VMX offers a comprehensive range of circular backshells, providing Environmental sealing, EMI RFI Shielding, Strain relief, Vibration resistance etc assisting to meet the challenges in the harsh environment applications. Our

[Read More](#)

### Metallic Caps

Our Metallic caps are designed to provide environmental sealing to the connectors thereby protecting the connectors against dust, water, moisture, EMI. These caps also prevent damage to the faces of the connectors, and to protect the

## About VMX HI Connector

VMX HI Connectors Pvt. Ltd. is one of the leading components suppliers for interconnect industry. We produce components for connectors and accessories complying with most Military standards like MIL-DTL-5015, MIL-C-26482, MIL-DTL-38999, and AS85049 etc. Our ability to product these components as parts or in full connectors to the required quality level is demonstrated to our esteemed customers for many years now. A fully integrated factory with machining, die-casting, electro-plating, insulator molding and assembly facilities enable us to meet our commitments on schedules.

*The quality system is conforming to the requirements of ISO 9001 standards and our approach to quality control is by "process controls" which gives us the edge to address any deficiencies proactively, and thereby, eliminate wastage.*
